Care and Cleaning

For best results, keep the following in mind when caring for your VAPSINT product:

- .Use a mild detergent such as liquid dishwashing soap and warm water for cleaning. Do not use abrasive cleaners that may scratch or dull the surface.
- .Carefully read the cleaner product label to ensure the cleaner is safe for use on the material.
- .Do not allow cleaners to sit or soak on the surface.
- .Always test your cleaning solution on an inconspicuous area before applying to the entire surface.
- .Wipe surfaces clean and rinse completely with water immediately after cleaner application. Rinse and dry any overspray that lands on nearby surfaces.
