Multi-Scenario hanging or Ceiling

DEROCATE CEILING FAN

User Manual

Pre-Installation

Parts Kit

AA Mounting screws ×4	BB Expansion bolts ×2	CC Plastic wire nut (not to scale) ×3	DD Blade attachment screw ×16	EE Paper Washers ×16
FF blade arm screw and lock washer ×1	GG Balance sheet ×2	HH Balance the clip ×1		

NOTE Hardware not shown to actual size.

Fastening the blade arms to the motor

Blade attachment screw ×16, **Paper Washers** ×16, **Arm** ×5, **Blade** X 5PCS

⊕ **Phillips screwdriver**

- Remove the pre installed screws
- Install the fan blade on the corresponding screw hole, and then install and fix it with the removed screws.

FF blade arm screw and lock washer ×10PCS (unscrew form motor)

⊕ **Phillips screwdriver**

- Fasten the arm to the fan-motor assembly by inserting the alignment post into the slot on the bottom of the motor and tightening the pre-installed armscrews.
- Repeat this step for the remaining blade assemblies.

Finish

Assembly-Attaching the Lights

Motor kit (White, Blue), **Light kit** (White, Blue)

- Insert the "white" line in the switching box of the motor into the "white" line of the light and tie insulated rubber tape.
- Insert the "blue" line in the switching box of the motor into the "blue" line of the light and tie insulated rubber tape.

Light kit screw ×3PCS (unscrew form motor)

⊕ **Phillips screwdriver**

- Take the wire into the switching box of the motor.
- Align the opening of switching box of the light at switch locking position of the positive and negative rotation of the motors withching box.
- Place the cover screw in the screw of the switching box.

Install crystal

Installation of the hanging bracket

CONCRETE CEILING

Mounting Bracket, Expansion Bolts, Flat Washers, Nuts

For concrete ceiling, use the percussion bit with diameter 8mm to drill holes according to the length of expansion screws. Then use the attached expansion screws to fix the hanging bracket onto the ceiling (selection is made according to actual requirements of the customers).

STEP 1 A-CONCRETE CEILING

SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX.

- Use the Mounting Bracket as a guide, mark the spots where the 4 Expansion Bolts will be drilled.
- Remove the Mounting Bracket, drill 2 holes and insert 2 Expansion Bolts into the concrete ceiling, install the mounting bracket and secure with Flat Washers, Spring Washers and Nuts.

IMPORTANT : SCREWS & NUTS MUST BE TIGHTENED TILL SNUG

WOODEN CEILING

Mounting Bracket, Washers, Self tapping screw

For wooden ceiling, use wood screw to drill on the wooden beam or the "junction box" to fix the hanging bracket(selection is made according to actual requirements of the customers)

STEP 2 A-WOODEN CEILING

SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX.

- Use the Mounting Bracket as a guide, mark the spots where the 4 Self Tapping Screws will be drilled.
- Remove the Mounting Bracket, drill 4 holes for 3MM diameter, install the mounting bracket onto wooden ceiling with the 4Self Tapping Screws &Washers

Install downrod assembly

- Carefully feed the motor wires up though the downrod
- Align the holes and replace hanger pin and locking pin.
- Tighten the two colar setscrews.
- Slip coupling cover,canopy coverand canopy onto the downrod.

Hang the fan

- Lift the fan motor assembly up to the mounting bracket and seat the hanger ball in the mounting bracket socket.Rotate the fan motor assembly until the check groove drops into the registration slot and seats firmly.The downrod should not rotate if the is done correctly

Install canopy

- Ensure the loosened screws is inserted into the key holes on the mounting bracket.
- Carefully raise the canopy up to the mounting bracket.Rotate the canopy clockwise.
- Secure the canopy by replacing the screws previously removed and tightening the screw previously loosened
- Place the canopy cover (if applicable)and rotate the canopy cover clockwise until it locks into position.

Making the electrical connections

WARNING Each wire not supplied with this fan is designed to accept up to one 12-gauge house wire and two wires from the fan. If you have larger than 12-gauge house wiring or more than one house wire to connect to the fan wiring, consult an electrician for the proper size wire nuts to use.

IMPORTANT: Use the plastic wire connectors(BB) supplied with your fan. Secure the connectors with electrical tape and ensure there are no loose strands or connections.

WARNING: Remove the rubber motor stops on the bottom of fan before installing the blades or testing the motor.

IMPORTANT: Use the plastic wire connectors(BB) supplied with your fan. Secure the connectors with electrical tape and ensure there are no loose strands or connections.

remote control(transmitter) X 1PCS, remote control(receiver) X 1PCS

From CEILING FAN (BLACK, BLUE, WHITE), From controller (BLACK, BLUE, WHITE), FOR AC IN L (Black, White), FOR AC IN N (Black, White)

SWITCH OFF THE ELECTRICAL MAINS AT THE CIRCUIT BREAKER FUSE BOX

1)Connect wires from receiver to terminal block properly as instrustion diagram

Assembly - Hanging the Fan(continued)

Preparing for mounting

Install remote control

Preparing for mounting

- Carefully push the canopy to the bottom of the mounting bracket, make two sliding holes aligned to the two prominent screws on the mounting bracket, and then turn clockwise until tight.
- Push the canopy ring to the bottom of the canopy, slide the inner holes aligned to the two prominent screws on the mounting bracket again, and turn the canopy ring clockwise until tight.

- Remove the mounting bracket from the canopy by loosening the two canopy screws located in the L shaped slots
- Remove and save the two canopy screws in the round holes. This will enable you to remove the mounting bracket

Use of remote control

Med Level, Low Level, Fan On/Off, Auto off after 1hr~8hr, Hi Level, LIGHT ON/OFF

LOW FanSpeed Low Level, MED FanSpeed Middle Level, HI FanSpeed High level, STOP FanSTOP

LIGHT ON/OFF LIGHT NO/OFF

1H Auto off after 1hr, 2H Auto off after 2hr, 4H Auto off after 4hr, 8H Auto off after 8hr
