\* Q Long screw

**Rx4**

\* R Install on P-plate with Q-screws and torque with S-nuts.

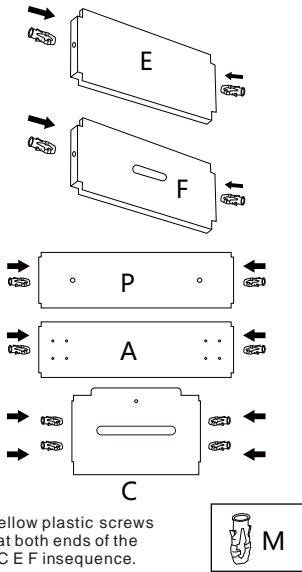

**Sx4**

\* S Locking Q-screw and R-wheel.

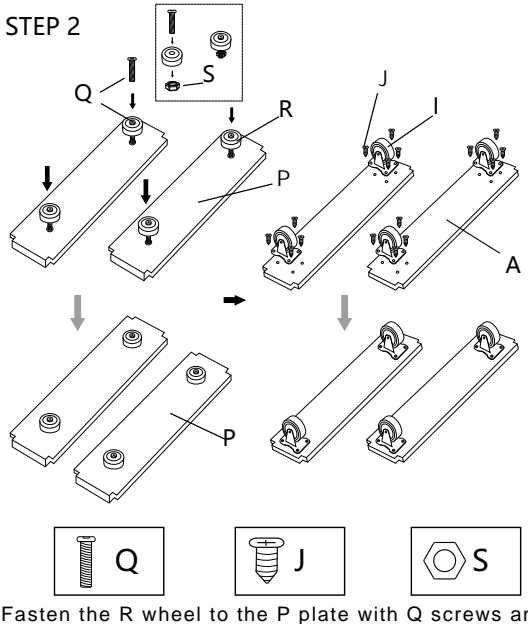

# Detailed installation steps :

## STEP 1

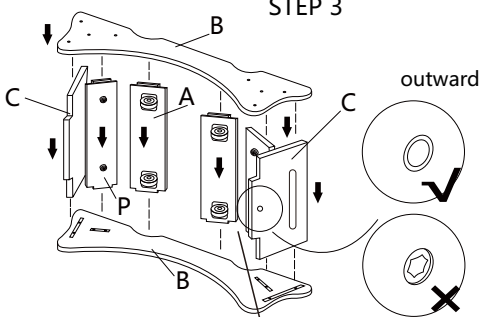

Insert the M yellow plastic screws into the holes at both ends of the assembly A P C E F in sequence.

## STEP 2

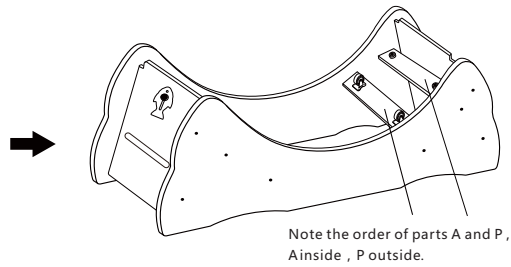

Fasten the R wheel to the P plate with Q screws and S nuts and the I wheel to the A plate with J screws.

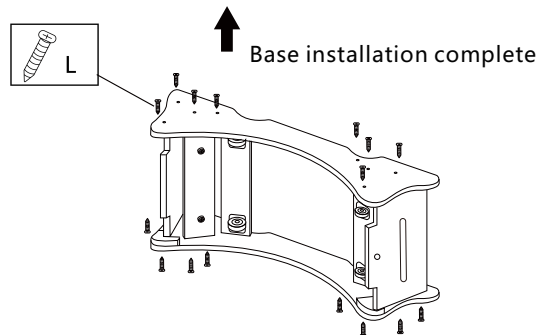

## STEP 3

Insert the fixingscrews first, then install the other side to fix it, and then install the other side to fix it.

Note the order of parts A and P, A inside , P outside.

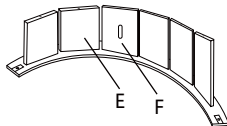

Base installation complete

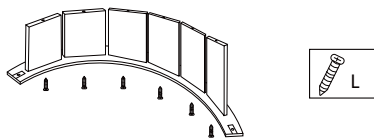

The two A plates with I wheels are at the bottom, and close to the A plates are the two P plates with R small wheels.

\* Note that the F plate should be placed in the middle of the horizontal plate arrangement in the arc plate (such as the third of the 5 horizontal plates, the fourth of the 7 horizontal plates, the actual object shall prevail) F plates cannot be placed at curved plate joints.
