1

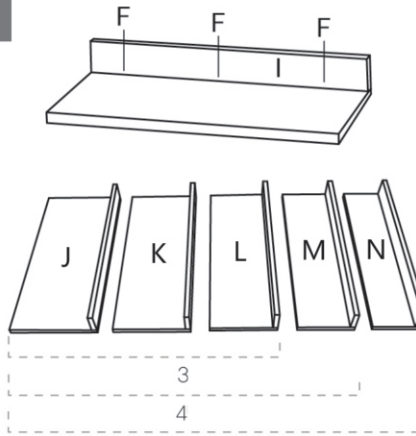

Diagram showing the assembly of a shelf. Three screws (F) are used to secure a shelf (I) to a ladder frame (H). The shelf is supported by brackets (J, K, L, M, N). Dimensions 3, 4, and 5 are indicated for the shelf's width.

2

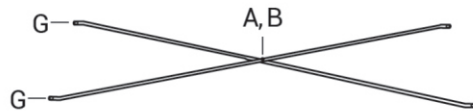

Diagram showing the assembly of diagonal braces (A, B) using screws (G) to connect the ladder legs.

3

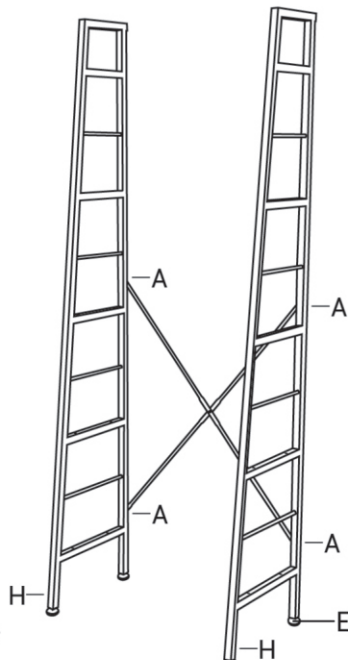

Diagram showing the assembly of the ladder frame (H) using screws (A) to connect the legs and cross-braces.

3

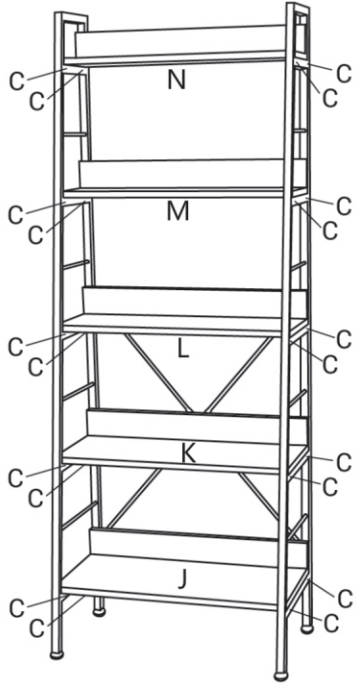

Diagram showing the final assembly of the shelving unit. The shelves (J, K, L, M, N) are attached to the ladder frame (H) using screws (C).
