Assembly Steps

Overview

This Arm Chair has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the Arm Chair parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

Frame (A)

Seat (B)

Place the Frame(A) and Seat(B) on a clean, non-marring surface. Place the Frame(A) with the Legs facing skywards.

Step 2

Seat(B) stuck in the middle of the Frame(A)

Step 2. 1

Step 2. 2

Place the Seat(B) on the side of a table, with the backrest facing down and perpendicular to the desktop.

Step 2.1: Place the Frame(A) onto the Seat(B) with the Seat(B) stuck in the middle of the Frame(A) as seen in picture. Make sure the same space between the both sides of the seat(B) backrest towards the frame(A) crosspieces.

Step 2.2: Attach Frame(A) to Seat(B) using Screws(①) with Screwdriver(②).

Friendly notice: If there exist gaps between the Frame(A) and Seat(B) which hinders the Installation , then pull the Seat(B) upwards into the Frame(A), this action helps to ensure there are no gaps between them, and then repeat the Step 2.2.

Do not fully tighten the Screws.

Step 3

Next, install the Screws(①) on the back in a sequential manner by using Screwdriver (②).

Note: Do not overtighten the screws. Overtightening could lead to damage to the product.

TIGHTEN ONLY UNTIL GET SECURE AND STABLE.

Step 4

Test for Stability

Finally, stand the Arm Chair right side up, and place the Arm Chair on a **LEVEL SURFACE**.

Inspect it and make sure all parts are adequately connected.

Gently and gracefully, sit into to the Arm Chair.

This would help to align all the parts at all the joint areas.

Then get off the Arm Chair, and place it facedown.

Proceed to tighten all Screws in a sequential manner.

If there is still wobbles, loosen the screws and execute this same process.

Step 5

Position the Arm Chair right side up. Make sure all parts are connected and securely locked into position.
Put the Cushion(C) and Pillow(D) on the seat(B) as shown in the picture.
Your Arm Chair is ready for use.

This Arm Chair can only be used on a flat, level surface.

What is Proposition 65?

Proposition 65 is a California law that requires warning labels on products that may contain one of more than 800-plus chemicals or ingredients that the California Office of Environmental Health Hazard Assessment (OEHHA) has deemed to cause cancer or other reproductive toxicity. Chemicals and elements on this list include wood dust, brass, and other everyday substances, which can be found in very common household items, such as: lamps, tableware, jewelry, crystal glasses, electric cords, beauty products, automobiles, and furniture.

Why Did I Find a Proposition 65 Warning on My Home Goods Product?

We include Proposition 65 warnings on all of our products because there is always a chance that one of the 800-plus common chemicals and ingredients listed under this law could potentially be on our furniture or packing materials. We risk large fines under this law, if we don't include this warning.

Should I worry?

We realize you may be worried finding this warning on our products, but we want to reassure you that the hazardous exposure limits for any of these chemicals have never been found on furniture products that we've shipped to our customers. Additionally, this warning label is very common and can be found on almost every piece of furniture sold in the state of California.

Just How Common Are Proposition 65 Warnings?

Proposition 65 warnings have become so common in California that it is hard to take a trip to a local bank, grocery store, or restaurant without finding at least one warning. In fact, even the Disney Land Resort has a Proposition 65 warning:
