Assembly Step

Overview

This table has multiple parts and may require up to some 30 minutes to assemble. To give you an overview of the table parts, the above picture is to help you put the various parts into perspective. Please read through the instructions below to familiarise yourself with the parts and steps before assembly.

Step 1

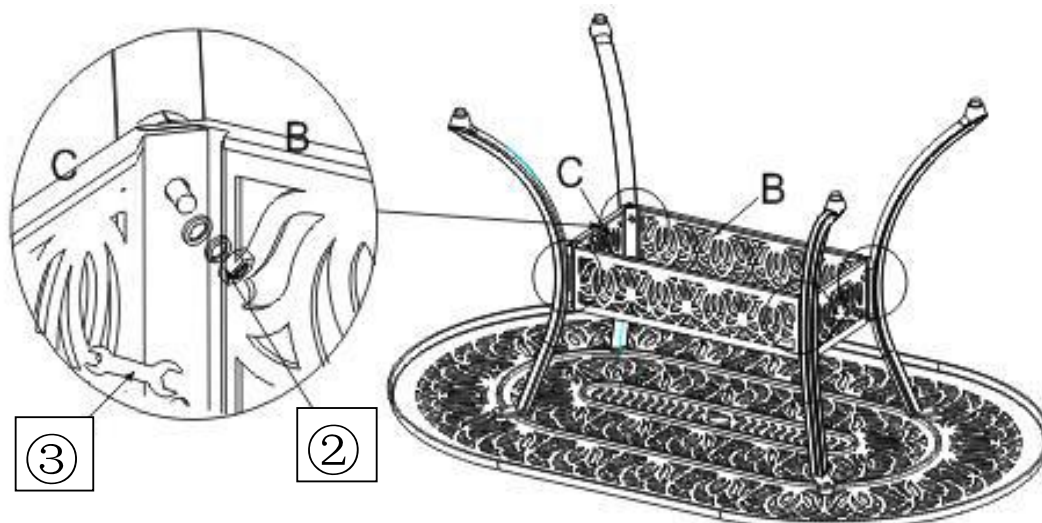

Unpack and place all parts onto a clean soft surface.

Step 2

Place the Table Underside, underside facing skywards. Fix the Studs (1) into the table top (A) with the Screwdriver (4). Then place and fit the Four Table Legs (D) over the bolts fitting on the tabletop (A) using Washers, Spring Washers and Nuts ((2) with the Spanner (3). **DO NOT over tighten, yet.**

Step 3

NOTE : To HOLD the legs together in position, the LONG and SHORT LEGSSUPPORT PANELS WILL OVERLAP AT ALL 04 (four) CORNERS. Proceed to affix the Long and Short Legs Support Panels (B&C) to the table legs with the Washers and Spring Washers and Nuts((2)) using Spanner(3). **Do not over tighten.** Repeat the same process for all 04 (four) contact points of the Table Legs and the Legs Support Panels. **Once all the panels are in place, proceed to tighten the screw-bolts of the legs, in a rotational sequential manner.** By this, it allows the table legs to be locked into position, evenly, thus reducing wobbles. **Thereafter, lock all the Leg Support Panels tightly into position.** { Please note the direction of the table top pattern to the Leg Supports (B&C) }

Step 4

Turn the table right side up. Adjust the pre-installed Leverllers at the end of each Table Legs (D) until the table is level with the ground. Securely, tighten and fasten all the screws and washer-nuts.

Your table is now ready for use.

This Table can only be used on a flat, level surface.

What is Proposition 65?

Proposition 65 is a California law that requires warning labels on products that may contain one of more than 800-plus chemicals or ingredients that the California Office of Environmental Health Hazard Assessment (OEHHA) has deemed to cause cancer or other reproductive toxicity. Chemicals and elements on this list include wood dust, brass, and other everyday substances, which can be found in very common household items, such as: lamps, tableware, jewelry, crystal glasses, electric cords, beauty products, automobiles, and furniture.

Why Did I Find a Proposition 65 Warning on My Home Goods Product?

We include Proposition 65 warnings on all of our products because there is always a chance that one of the 800-plus common chemicals and ingredients listed under this law could potentially be on our furniture or packing materials. We risk large fines under this law, if we don't include this warning.

Should I worry?

We realize you may be worried finding this warning on our products, but we want to reassure you that the hazardous exposure limits for any of these chemicals have never been found on furniture products that we've shipped to our customers. Additionally, this warning label is very common and can be found on almost every piece of furniture sold in the state of California.

Just How Common Are Proposition 65 Warnings?

Proposition 65 warnings have become so common in California that it is hard to take a trip to a local bank, grocery store, or restaurant without finding at least one warning. In fact, even the Disney Land Resort has a Proposition 65 warning:
