Packaging: 270 lbs hard kraft paper carton packaging

Sofa Features:

This stylish sofa set includes a loveseat and a 3-seater sofa, designed with sleek curves and equipped with 5 decorative pillows. It offers a modern look and comfortable seating.

The living room sofa is made of skin-friendly, smooth, breathable, and durable plush fabric with high-density sponge, ensuring support and comfort. The sofa not only features modern texture elements but also provides a cozy and striking appearance.

This sectional sofa has a sturdy solid wood frame and custom metal legs. The loveseat has a weight capacity of 530 lbs, and the 3-seater can hold up to 750 lbs. The bottom of the sofa has serpentine springs, and the cushions contain independent springs and high-density sponge, offering a marshmallow-like feel without deformation over time.

The sofa set can be arranged freely according to your preferred interior decor, making it perfect for living rooms, bedrooms, and lounges. The plush fabric and clean lines create a look that suits modern interior decor.

Enjoy assembling the sofa with your friends! The comfortable sofa comes with a manual and all necessary hardware to guide you through the assembly process. Two people are recommended for assembly.

This sofa is family-friendly for homes with children or pets, as the seat cushions are removable

and washable. For daily maintenance, gently wipe with a damp cloth. For stains, use a professional fabric cleaner. Do not dry clean; hand wash only with water temperatures not exceeding 40°C. Avoid direct sunlight.

The sofa cushions are made of custom high-density, high-resilience sponge with independent spring packs, offering a comfortable, enveloping feel. The cushions are vacuum-packed upon delivery; follow the manual to unpack, and they will rebound to 80% within 5 minutes. Install the cushion covers within 5 minutes after unpacking to avoid difficulty in fitting them later.

The sofa comes with additional decorative pillows (size: 40*40 cm). The multi-layer color scheme makes the sofa stand out, adding charm to your room.

The V-shaped design provides a larger support area, making the sofa more stable. This is crucial for the overall structure and stability when sitting.

The specially designed sloped armrests, higher at the back and lower at the front, not only enhance functionality but also give the sofa a unique and stylish look. This design adds a touch of modernity and design flair to the sofa.

Notes:

Follow the manual strictly for sofa assembly. Two people are recommended for assembly.

The sofa cushions are vacuum-packed upon delivery. Follow the manual to unpack (do not use a blade, as it may damage the cushion core. Use scissors to cut along the edge). Install the cushion covers promptly (follow the manual; the cushion core has a specific orientation: front/back and top/bottom. Refer to the manual for details). After installing the covers, pat and arrange the cushions. The cushions will fully recover after 24 hours.

It is recommended to place the sofa against a wall.

After confirming the angle brackets are installed, move the sofa. When moving, two people are needed, handle with care.

Color Difference: Due to the special nature of plush fabric, the color may appear slightly different under various lighting conditions.

Size Difference: Due to the special nature of upholstered sofas and manual measurement, there may be a 2-4 cm error.
